Education

UC Berkeley *Bachelor of Arts, Computer Science*

Grad. May 2017

Experience

IBM Watson *Full Stack Developer*

May 2017 - Present

- Developed two large **React + Node.js** web applications for the Compare & Comply **artificial intelligence** product:
 1. Internal-facing app for generation of training data
 2. External-facing app for use by large-scale corporate customers
- Prepared product for global audience by implementing **internationalization** on both the server and client side.
- Implemented **performance optimizations** including infinite-scroll, API pagination, and **GraphQL** request caching.
- Handled app deployments and set up continuous automated deployment to **Kubernetes**
- Contributed to squad **leadership** by:
 - Formalizing conventions around CSS naming and React patterns.
 - Mentoring and assigning tasks to 4 summer interns.
 - Organizing scrum, assigning and prioritizing GitHub issues, and representing the squad in meetings when squad lead was away.

IBM Watson *Full Stack Development Intern*

Summer 2016

Packd *Co-founder and Full Stack Developer*

2014 - 2017

- Configured physical networking devices and multiple apps to tell users how busy 11+ libraries, gyms, and cafés are before they go.

Biztera *Full Stack Development Intern*

2015 - 2016

- Made user interface and database schema improvements.
- Built a Slack bot using Biztera's existing API and Oauth flow.

UC Berkeley *Lab Assistant and Teaching Assistant in Training*

2014 - 2015

Awards & Recognition

IBM Watson: *Manager's Choice Award for Showing Personal Interest*

Q1 and Q2 2018

UC Choral Ensembles: *Outstanding Manager*

2015
